THANK YOU :

Special thanks are due to Chris Atkins, BFBC for all his maps, Cllr Sarah Peacey BFBC for her sympathetic advice, Anne Mackay for her grasp of statistics, to Chris Bowden for his rigorous planning knowledge and to everyone who helped with explanations, information and by giving their time. Outside Bracknell, the work of the Exeter St James, Great Aycliffe and Frome Neighbourhood Plans set a high standard to follow.

WRITING the Plan :

It was Russell Reeve, then BTC Town Clerk, who focussed the Bracknell Town Neighbourhood Plan Steering Group's attention on this quote by James Derounian of the University of Gloucestershire in the draft Thame Neighbourhood Plan:

There is the conundrum of writing a community-based plan that is simultaneously intelligible to the citizen while being sufficiently robust and precise in terms of wording to withstand legal challenge (and) practically usable by planners in deciding individual permissions...

We hope this plan has solved it.
