Youthline	£5,500.00	5,000.00	As the Pandemic hit the UK, we worked hard to find new ways of working with our young people and the people who support and work with them. What quickly emerged was a safe and sustainable online and telephone counselling support system for the clients who desperately needed support at this time. This service has been so successful that we now need to extend our online provision by recruiting new counselling volunteers and ensuring that all our counsellors are fully trained to deliver online services. WEe want to be able to recruit more counsellors to reduce our waiting list and meet the demand for our services locally. We see demand for our service increasing due to the pandemic. A contribution would allow us to maintain and expand our existing provision.This funding will allow us to meet the significant demands on our service and change young lives for the better.
