16/00086/TRTPO	35 Lynwood Chase	Approval	No Objection
16/00350/FUL	2 Kenton Close	Refusal The proposed change of use of land would involve the loss of amenity land that provides significant value to the character of the surrounding area through its siting and overall visual contribution to the openness and layout of the street scene.	Recommend Refusal: BTC Amenity Land Policy supports the retention of amenity land for the benefit of all. 'Such areas, particularly if part of the highway, may be important for traffic safety reasons. Other areas may be an integral part of the overall design and layout of an estate, contributing to the appearance and Character of that estate.

To retain the open character of the development in the interests of visual amenity.	This would result in damage to an important area of amenity land. Grass verges at the entrance of this road are important not only for the visual amenity of the area but for health and safety reasons. This open area ensures good visibility for vehicles turning and there should be no obstruction allowed on this area. This area should stay open and the parking of vehicles should be prohibited on any part of it for the safety of all involved.
